OUR STORY

Black Wolf Security is a licensed private security company based in the Kurdistan Region of Iraq, established in 2017 with a distinct focus on providing elite security solutions for high-profile industries. Specializing in the oil and gas sector, embassies and consulates, and international organizations, we stand at the forefront of the security industry, committed to delivering exceptional service to clients in high-risk environments. Our purpose is not only to protect our clients' assets, personnel, and operations but also to position ourselves as leaders in security excellence within the region.

Black Wolf Security continues to advance standards across the Kurdistan Region's security sector. With deep expertise in industries such as oil and gas and diplomatic security, we deliver effective, tailored protection strategies designed to meet the challenges of high-risk environments. Our steadfast commitment to excellence ensures our clients' safety, operational continuity, and peace of mind. Our mission extends beyond delivering security services—we strive to be a model of continuous learning, innovation, and ethical leadership, steering the industry toward smarter, more responsible, and effective security practices. Our unwavering dedication to excellence and client protection sets us apart in a competitive landscape, offering the reliability and trust that major enterprises and government institutions require.

As a ISO 9001:2015, 18788:2015, ANSI/ASIS PSC-1:2022 Certified Company, we are proud to be a beacon of security leadership across the Kurdistan Region of North Iraq. Our Integrated Management Systems (IMS) allows tailored solutions for your security needs, opening the pathway for optimal protection strategies.

SPECIALIZED SECURITY FOR THE OIL & GAS INDUSTRY

At Black Wolf Security, our focused expertise in oil and gas security sets us apart from conventional providers. Rather than offering broad, one-size-fits-all solutions, we deliver specialized protection strategies tailored to the complex, high-risk nature of oil and gas operations. This industry-specific approach enables us to proactively identify and neutralize threats—from operational disruptions to geopolitical challenges. With deep knowledge of energy infrastructure and field-tested tactics, we ensure strong protection, minimizing downtime and maximizing continuity. By concentrating our resources on this sector, we provide unmatched reliability, precision, and effectiveness in safeguarding the critical assets that drive economies and global markets.

THE IMPORTANCE OF OIL & GAS ASSET PROTECTION IN KURDISTAN

The Kurdistan Region of Northern Iraq holds a pivotal position in global energy production, making the oil and gas sector and its assets a critical concern for both local authorities and international stakeholders. Due to the region's geopolitical volatility, operational complexity, and constantly evolving threat landscape, securing oil fields, refineries, and distribution networks is vital to preserving economic stability and energy exports. Any disruption—whether caused by sabotage, theft, terrorism, or industrial hazards—can result in widespread repercussions across regional and global markets. Black Wolf Security delivers specialized protection for every essential component of the oil and gas supply chain. We safeguard storage facilities, export terminals, offshore platforms, and remote field sites—locations where unique logistical demands and elevated risk levels require sophisticated, expert-driven security strategies. Our services also extend to protecting corporate headquarters, worker accommodations, and operational control centers, ensuring that every segment of the energy cycle remains secure. As global demand for safe and reliable energy continues to rise, our dedicated teams provide comprehensive, adaptive security solutions that meet the rigorous demands of this vital industry.

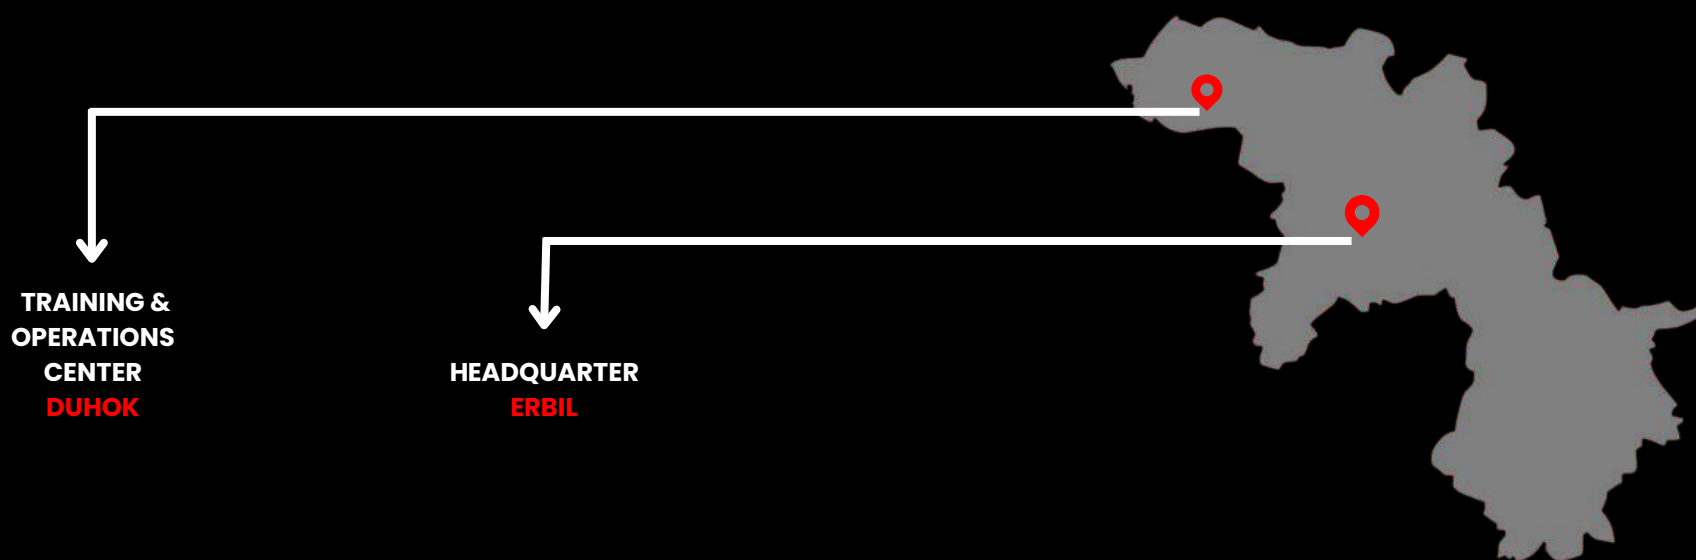

PROTECTION & CRITICAL INFRASTRUCTURE

Our robust management system is strengthened by three internationally recognized accreditations: ISO 9001 (Quality Management), ISO 18788 (Security Operations Management), and ANSI/ASIS PSC.1-2022 (Private Security Company Standards). These certifications underscore our dedication to precision, accountability, and continuous improvement—ensuring our services consistently meet the highest global standards. What distinguishes Black Wolf Security is our focused market specialization in the oil and gas sector. Our security strategies are meticulously tailored to the distinct challenges of protecting vital energy assets such as oil rigs, wells, blocks, and refineries. By merging deep industry knowledge with advanced security protocols, we deliver unparalleled protection for critical infrastructure, maintaining operational continuity even under the most demanding conditions.

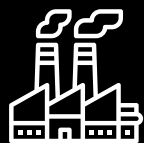

We are proud to be one of the region's most specialized security providers. Our proven track record in high-risk environments has not only solidified our leadership in the oil and gas domain but has also earned us the confidence of diplomatic institutions, including foreign embassies and consulates.

Values

Our vision is to build lasting trust with our clients by consistently delivering the highest quality security services across the Kurdistan Region of Iraq. We are dedicated to continuously enhancing our services to meet and adapt to the evolving needs of our clients. By investing in and empowering our most valuable asset—our team—we strive to achieve our objectives while consistently exceeding client expectations.

Mission

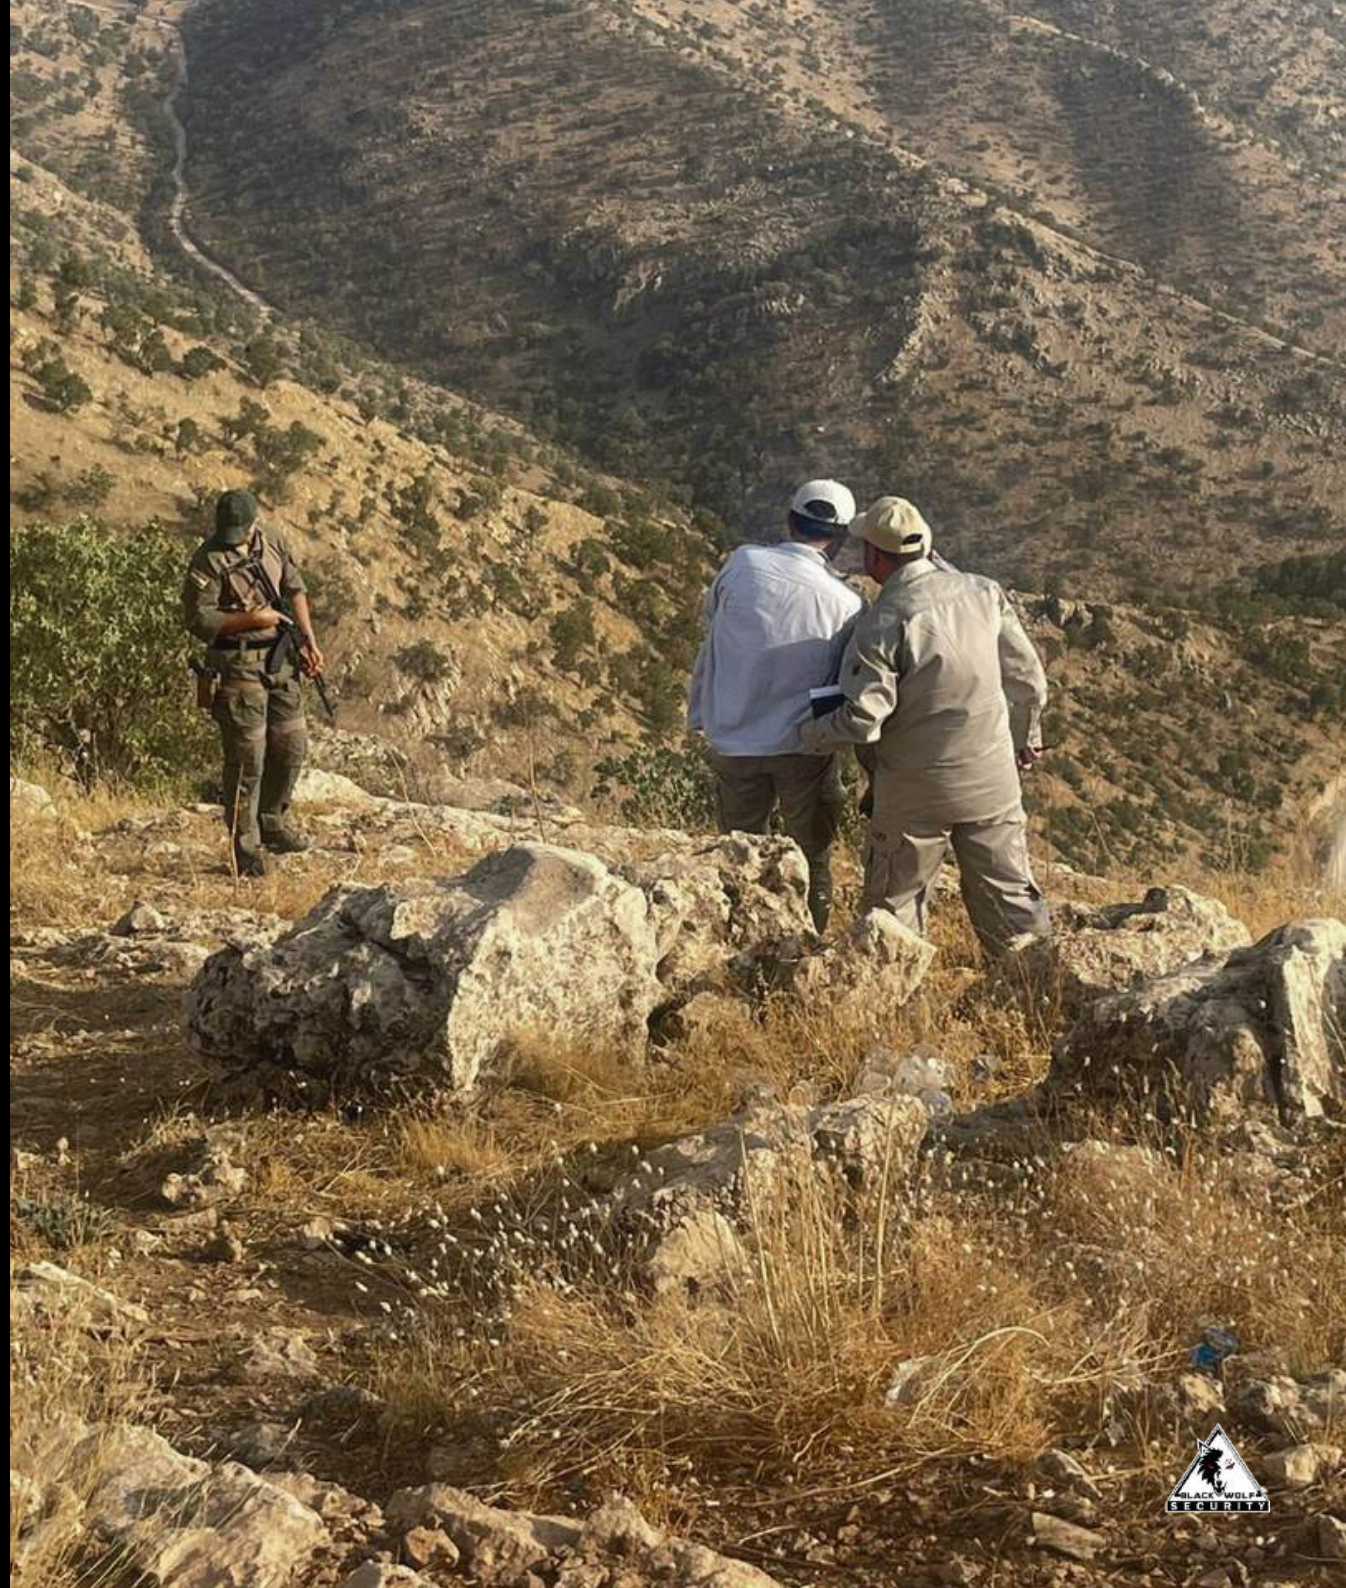

Black Wolf Security is committed to delivering tailored, comprehensive security solutions designed to meet the unique needs of each client. We focus on providing personalized services that consistently surpass expectations through professionalism, reliability, and continuous advancement. Ensuring the safety and security of our clients' personnel, assets, properties, and the wider community is our foremost priority. We strive to create a trusted environment where businesses and individuals can operate securely and with peace of mind.

VALUES & MISSION

ZERO-INCIDENT OPERATIONAL EXCELLENCE

In the past 12 months, Black Wolf Security has successfully delivered over 574,000 manpower hours across 10 high-risk locations in the Kurdistan Region of Iraq — with zero security incidents reported. This achievement stands as a testament to our rigorous personnel vetting, continuous training programs, and precision-driven security protocols. Operating in complex environments, including oil fields and diplomatic sites, our teams maintain an unwavering focus on safety, readiness, and operational continuity. At Black Wolf Security, performance is measured not just in hours worked — but in lives protected, assets secured, and threats prevented.

BLACK WOLF'S

SERVICES QUALITY IS TAILORED TO HIGH RISK ENVIRONMENTS

We deliver specialized mobility security solutions, including Armed Drivers, Journey Management, and Travel Security, ensuring safe transit across complex and high-risk terrains. Our strategically located Support and Communication Centers in Erbil and Duhok serve as operational command hubs, providing real-time intelligence and seamless coordination for effective security management. We also offer expert consulting and pre-operation services—such as Site Surveys, Risk Assessments, and Hostile Environment Awareness Training (HEAT)—to prepare personnel for potential threats. Our Defensive Driving Training (DDT) further enhances safety by equipping our teams with advanced evasive and defensive driving techniques. With a proven history of securing critical assets in demanding environments, we are recognized as a trusted leader in delivering bespoke security solutions. Our comprehensive suite of services is designed to meet the unique challenges of the oil and gas industry and diplomatic sectors. We ensure strict Access Control, provide reliable Static Protection, and deploy highly trained K9 teams to safeguard critical sites. Additionally, our Close Protection Officers, FULL PSD Teams, and experienced PSD Team Leaders/Shift Leaders deliver exceptional security tailored to the needs of high-profile individuals and sensitive operations.

| QUALITY MANAGEMENT | PRIVATE SECURITY COMPANY OPERATIONS MANAGEMENT | SECURITY OPERATIONS MANAGEMENT |

“The planning, delivery and oversight of security management services, close protection, and static and mobile armed security services in Kurdistan.”

At Black Wolf Security, we take pride in holding internationally recognized certifications that affirm our unwavering commitment to quality, safety, and operational excellence. We are accredited with ISO 9001:2015, which guarantees that our Quality Management System (QMS) consistently meets the highest standards for customer satisfaction and continuous improvement. Our ISO 18788:2015 certification further demonstrates our capability to effectively manage security operations through a structured framework encompassing risk management, security processes, and performance monitoring. Additionally, our compliance with ANSI/ASIS PSC.1-2022 underscores our dedication to ethical security practices and the protection of human rights, ensuring that all our services are delivered responsibly and in full compliance with international standards. These accreditations not only validate our rigorous internal processes but also highlight our commitment to providing top-tier security solutions, solidifying our reputation as a trusted leader within the security industry.

VETTING, SCREENING & BACKGROUND CHECKS

ELITE PERSONNEL SELECTION PROCESS

We filter candidates through a multi-phase selection process designed to ensure integrity, capability, and mission-readiness:

- Medical Evaluation (cardiovascular, orthopedic, substance abuse screening)
- MOI Background Check & Police Clearance
- Intelligence Screening – detecting affiliations, behaviors, red flags
- Physical Fitness & Field Simulation Testing
- Psychological Resilience and Hostile Environment Simulation

FORCE SUSTAINMENT & CONTINUOUS TRAINING

Black Wolf guards are not static—they evolve. Within our continued skill enhancement and training programs we implement:

- Quarterly firearms requalification (pistol, rifle)
- Biannual HEAT re-certifications
- Weekly briefings on regional threat updates
- Unannounced performance audits and drills
- Language and cultural awareness training for client interaction

OUR SERVICES **YOUR PROTECTION** **OUR PRIORITY**

Static Guard Services

Our Static Guard Services provide dedicated, on-site security personnel to monitor and safeguard critical assets, ensuring continuous vigilance and a strong deterrent against unauthorized access or potential threats.

Mobile Security Services

Our Mobile Security Services deploy specialized response teams to deliver on-the-move protection, safeguarding personnel and assets across remote and high-risk environments.

Access Control Services

Our Access Controller Services comprise senior and junior staff, offering 24-hour and 12-hour on-site coverage to manage and monitor entry points, ensuring authorized access only to sensitive areas and strengthening overall site security.

Close Protection Services

Close Protection Services deliver specialized security for executives, diplomats, and other high-profile individuals, ensuring their safety with discreet, professional bodyguard teams tailored to each client's unique risk profile.

Cargo Escorting Services

Our Cargo Escorting Services guarantee the secure transportation of valuable shipments, safeguarding goods against theft, hijacking, and damage through skilled escorts and continuous real-time monitoring.

Open Source Reports

Our Intelligence Reporting Services provide real-time security insights to keep you ahead of threats. We deliver Strategic, Area, and Threat Reports to evaluate risks, identify vulnerabilities, and track global trends—ensuring your organization stays informed and proactive.

Security Consultations

Our Security Consulting Services deliver expert risk assessments, threat analyses, and customized security strategies to strengthen the protection of your assets, personnel, and operations in high-risk environments.

Vehicle Services

We offer armed and soft skin vehicle patrols to safeguard your assets on the move. Our mobile teams, staffed with armed drivers and equipped with medical supplies, provide rapid response, real-time monitoring, and are tracked using advanced IVMS GPS systems.

K9 Services

Our K9 Security Services deploy highly trained dogs and expert handlers to detect explosives, narcotics, and intruders, adding an extra layer of security and rapid response in high-risk or large-scale environments.

MOBILE SECURITY SERVICES

Dedicated Mobile Security Teams

Each mobile team is organized around a mission-specific profile: Principal Protection, Asset Transport, Field Movement, or Extraction. Team members include a Tactical Commander and/or Team Leader, Assistant Team Leader, Primary Driver(s) (DDT-certified), and Rear Security. Clients may customize the structure of dedicated teams.

Journey Management & Route Security

Each movement begins with a thorough threat and terrain assessment: roadblocks, tribal checkpoints, recent IED placements, or protests. Routes are redlined or approved in real-time. Vehicle trackers, panic buttons, convoy spacing rules, and live intelligence updates guarantee full journey monitoring. Our mobile command center offers communication relay and aerial overwatch coordination.

QUICK REACTION FORCE

High-Speed Crisis Containment

Black Wolf's QRF maintains standby vehicles ready to deploy at a moment's notice. Operators are trained in rapid urban and rural deployment, fire and movement tactics, and crowd control. Fully armed and equipped, they act as immediate response teams during crises. Real-time tracking and secure communications connect them to our Command Center and client units in the field.

- HOSTILE ROADBLOCKS
- VBIED/Bomb threats
- Carjacking rescue

Client Extraction & Hibernation Services

During high-risk escalations, Black Wolf performs secure extractions to designated safe havens, following full client intake protocols—including food, water, communications, and medical aid. Our fallback locations are confidential and vetted for sustainability, discretion, and access to evacuation assets (air or ground). Clients may request coordinated dry-run rehearsals with our teams.

- ARMED PROTEST BYPASS
- RULES OF USE OF FORCE
- CASEVAC

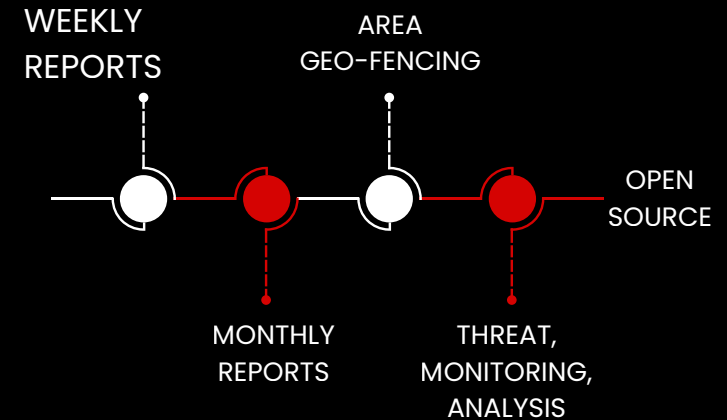

OPEN-SOURCE & INTELLIGENCE REPORTING

incident and security situational reporting

Black Wolf uses a tiered incident reporting matrix, providing immediate notifications to clients, followed by detailed assessments within 1-3 hours of incident resolution. Reports include drone footage, GPS-tracked logs, and officer statements. We maintain a centralized incident database which allows clients to access trend mapping, regional risk forecasts, and comparative site vulnerability.

THREAT awareness, ANALYSIS & FORECASTING

We issue Daily Risk Briefs, Situation Reports (SITREPs), and flash alerts, helping clients adjust posture before threats materialize. Black Wolf's analysts integrate geopolitical, tribal, economic, and criminal indicators into a live dashboard, giving decision-makers full-spectrum situational awareness.

PRE-MISSION PLANNING

At Black Wolf Security, we deliver seamless security operations through a structured process starting with comprehensive Risk Assessment of each site. We mobilize skilled personnel and necessary equipment, oversee Logistics & Supply Chain Coordination, and implement required security measures on-site. Our team manages all Clearances & Permits, sets up Emergency Protocols, and ensures consistent Communication & Coordination. By prioritizing these essential steps, we offer premium security solutions for oil and gas facilities, foreign embassies, and international organizations.

COMPREHENSIVE TRAINING & DEVELOPMENT AT BLACK WOLF SECURITY

- **Intensive Training Program**
- **Two Week Training Program for Onboarding**
- **Internationally Recognized Certificate Formats**
- **Risk & Quality Preservation Coaching**
- **Continous Training Assessments**
- **Certified & Experienced Training Instructors**

A key strength in delivering top-tier security at Black Wolf Security is our dedicated Training and Development Center. This facility offers tailored, comprehensive training programs using the latest technology and resources to simulate real-world scenarios, providing hands-on learning that boosts effectiveness. We regularly conduct various training sessions, from Hostile Environment Awareness Training (HEAT) to tactical and operational skills, ensuring our personnel are fully prepared for any situation. We understand ongoing training is vital to uphold the highest security standards and guarantee the safety of our team and clients. Given the dynamic nature of high-risk environments, our team stays equipped with the latest knowledge, skills, and best practices.

DUHOK KURDISTAN

TRAINING & OPERATION CENTER

MARKETS WE SECURE

Foreign Embassies & Consulates

Our specialized security services protect diplomatic missions, ensuring the safety of personnel, sensitive information, and diplomatic relations. Black Wolf currently provides optimal, proactive security solutions to safeguard diplomatic entities.

Oil and Gas

We provide comprehensive security solutions to protect critical infrastructure, ensure safe operations, and mitigate risks in the high-stakes oil and gas industry. These may include Oil Blocks in General, Refineries, Transportation Fields.

Large-Scale Industrial Projects

We offer advanced security strategies to protect vital industrial assets, prevent threats, and ensure the uninterrupted operation of industrial projects in sectors like steel, copper, and more.

OIL AND GAS PROTECTION

Oil Field Mobile Security

Our mobile security services provide dynamic, on-the-go protection for oil facilities, ensuring continuous monitoring, quick response times, and a robust security presence at all times.

Oil Field Access Control

We offer comprehensive access control solutions for oil fields, safeguarding critical infrastructure by strictly managing personnel, vehicle access, and entry points to maintain site integrity and safety.

Oil Cargo & Asset Protection

Our professional cargo escorting services ensure the safe and secure transport of goods through oil fields, protecting valuable assets from theft, damage, or disruption, with real-time monitoring and strategic route management.

SECURE YOUR OIL AND GAS OPERATIONS

The Oil and Gas sector in the Kurdistan Region of Iraq (KRI) has experienced significant growth over the past decade, with increasing exploration, production, and investment in energy infrastructure. As international companies and investors continue to expand their operations, the demand for robust security solutions has surged. The region's oil reserves and strategic location make it a key player in global energy markets, yet it also faces unique security challenges, including political instability, potential terrorist activity, and regional conflicts. With the rapid growth of this sector, security services are essential to safeguard valuable assets, ensure the safety of personnel, and protect critical infrastructure such as drilling sites, pipelines, and storage facilities. The complexity of these operations, combined with the region's dynamic security environment, necessitates specialized, high-level protection, ranging from on-site security teams to mobile patrols, surveillance systems, and emergency response services. As the KRI continues to be a focal point for global oil production, the role of security companies becomes increasingly vital in mitigating risks and ensuring the uninterrupted operation of these vital energy resources. This growing need for comprehensive security measures provides a significant opportunity for tailored security services in the region.

HUMAN RIGHTS COMMITMENT EXCELLENT IN SECURITY WITH INTEGRITY

At Black Wolf Security, we are fully committed to delivering world-class security services while upholding the highest standards of human rights worldwide. Guided by our ISO 9001:2015 and ISO 18788:2015 certifications, we embed ethical practices, full transparency, and deep respect for human dignity in every part of our operations. Our highly trained and dedicated team has the expertise and tools to navigate complex security environments while protecting the fundamental rights of individuals and communities. Respecting human rights is not just a policy but a core organizational value, ensuring all security measures carefully consider local cultures, safety, and freedom. Beyond our certifications, we take proactive and consistent steps to protect human rights throughout our operations, including clear grievance mechanisms and accountability to clients and local populations alike. At Black Wolf Security, we firmly believe security means not only protection but also building long-lasting trust and fairness. Choosing Black Wolf means partnering with a security provider who prioritizes ethical conduct to create a safe environment where safety and dignity are genuinely respected.

HEALTH, SAFETY AND ENVIRONMENT

Defensive Driving Courses (DDC)

Our Defensive Driving Courses (DDC) prepare security personnel to safely navigate high-risk areas. Training includes safe driving in hazardous conditions, evasive maneuvers, and emergency response techniques, ensuring that all personnel can travel safely in volatile environments while protecting assets and personnel.

Personal Protective Equipment (PPE)

We provide industry-specific PPE to all security personnel, tailored to the risks of each environment. From fire-resistant gear for oil and gas workers to bulletproof vests for embassy assignments, our staff is equipped with the proper protection and trained in its use to ensure maximum safety at all times.

RISK MANAGEMENT AND COMPLIANCE WITH ADVANCED TECHNOLOGY

At Black Wolf Security, our comprehensive risk management system begins with thorough threat assessment and continuous monitoring to effectively identify and mitigate potential risks. Utilizing advanced technologies such as Integrated Vehicle Management Systems (IVMS) and Geographic Information System (GIS) mapping, we maintain precise oversight of personnel movements, assets, and environmental hazards. All our operations fully comply with local laws and regulations, aligning with the legal framework of the Kurdistan Region of Iraq and regional security standards. Additionally, we actively collaborate with security agencies and government organizations to provide security solutions tailored to complex operational needs, ensuring the highest level of preparedness and operational resilience. Our commitment to transparency and accountability ensures that clients receive accurate reporting and clear communication throughout every phase of security operations. We continuously update our protocols in response to evolving threats and technological advancements to maintain a proactive security posture. Our team is trained to respond swiftly and effectively, minimizing risks and safeguarding assets under all conditions. This integrated approach allows Black Wolf Security to deliver dependable, cutting-edge protection that adapts to the unique challenges of each client.

B6 ARMORED VEHICLES

SAFETY FEATURES

B6 armored vehicles come equipped with reinforced bullet-resistant glass, armored plating, and blast-resistant flooring designed to absorb shock and reduce the impact of explosives. These features significantly lower the risk of injury or death in hazardous situations, ensuring passengers stay protected from various threats including roadside bombs and ambushes, while preserving vehicle mobility and operational effectiveness.

LEVEL B6 PROTECTION

B6 armored vehicles offer ballistic protection against ammunition up to 7.62mm NATO standard, including rounds from high-powered rifles, handguns, and explosive devices. This level of defense ensures the safety of high-profile individuals, executives, and sensitive cargo from common threats in conflict zones, urban settings, or volatile areas. The capacity to withstand diverse attacks is essential for operational security and mission success.

MOBILITY

This mobility makes B6 armored vehicles versatile for various missions, from high-speed evacuations to securing sensitive cargo or personnel in hostile environments. Their durability and speed are essential for carrying out security tasks efficiently in diverse terrain.

LOCAL WORKFORCE

CORPORATE SOCIAL RESPONSIBILITY

At Black Wolf Security, we are committed to ethical practices and sustainability across all aspects of our operations. We prioritize reducing environmental impact, ensuring compliance with local regulations, and supporting community initiatives. Our commitment to Corporate Responsibility drives us to operate with integrity, fostering positive relationships with the communities we serve while maintaining the highest standards of professionalism and accountability.

LOCAL WORKFORCE

We believe in the power of local talent and are committed to investing in the Local Workforce wherever we operate. By recruiting, training, and empowering individuals from the surrounding communities, we create job opportunities and help build stronger, more resilient economies. This approach not only supports local growth but also enables us to deliver culturally aware and effective security services, further strengthening our ties with the regions we serve.
